

## **Prophetic sings.**

Main passage: Luke 21: 5-36

Other message: Revelations 3:20, Matthew 24, Luke 24, Psalms 121.

In these days that we are living and in which many law are being approved that go against what we believe is very important for the kids to grow in an atmosphere where the word of God is taught which is not going to be taught in another place but their house through their parents or in church through sunday school. Take very seriously the spiritual education of your children, they need a strong base to avoid confusions and avoid damage to them but we trust our God and we pray for the kids and you as parents must also do it, and teach them what the bible says for them to grow in the fear of God. There are attacks directly against the family, we can not get surprised but know that is a world wide strategy to try to introduce teachings against the Bible, introduce venom since early ages to mold their minds and to give them a philosophy of life against the will of God. It is also important for the parents to be together and take care and see what is being taught you your kids in the schools, be alert, make yourself heard in the school, know what they are being taught, do know leave it to the schools and to the church, this is a spiritual fight. We have to work as a team , fathers, sunday school teachers, to protect the kids from false doctrines, very difficult times we're living in.

Thanks God we know by the media and the news we know what is going on in the other side of the word, and all of these things that are happening get into what I call the prophetic sings, the sings of the last days. We have lots of information in the Bible, things that we need to know and study and put them in our lives, so these last days won't come to us as surprise, but instead we have to be praying all the time and watch. Concerning all this we have precios books in the Old Testament, Daniel and Ezekiel are very important to know and we are studying them. I recommend you to read Ezekiel chapter 36, 37, 38 and 39. Zechariah chapter 14 is also a chapter very interesting to read. The letters of Paul to Thessalonica are also very important to read concerning all these matters. Revelations , an extraordinary book that was not written to confuse people but on the contrary, it was for the church to have good material to discern the things that are going to happen in the last days.

Only seven churches are mentioned in revelations, there were others, but seven were mentioned. These churches were in what today is Turkey. They need to receive a message of the Lord because they were going through very complicated situations and they needed different things, they were chosen those churches not only because they need de to listen to those messages but also because the problems that they had represent all the churches through history, they were like a picture of all the problems the churches were going to have go through history. Each church represents the different problems that the churches were going to have and it also represents the times. Today the church could be in the same times as the church in Laodicea. Never churches have had to many resources as these last days. We see christian boats to help others that are hospitals or carry books, planes, tv channels to spread the word, hospitals, so many resources that in the past we could not imagine the church would have today to preach, means to spread the word as through the internet that many people is seeing us now. This was one of the characteristic of the church

in Laodicea, and the Lord said to them, "I am at the door knocking" (Revelations 3:20), they had lots of things but had lost the presence of the Lord. The most important thing is not what we have, the most important thing is who we are, and we are sons and daughters of God, and without Him what we have is worth nothing.

Is incredible the amount of news that come to us everyday, different news everyday that change from one day to the other. From the weather to the coronavirus. In the Bible is forbidden to eat bats, it is said that this coronavirus has come from someone eating bat soup.

If we go against what the Bible says it will give bad results, if God forbid something in the Bible is for our good. When will we realize that God is for ever good and his mercy is everlasting? If God forbid something is for our own good, but men insist on not to follow nor obey God and therefore the consequences come.

Luke 21: 9-12 The Lord does not hide the reality that things can go bad in life. In the 90s there was a doctrine that was extended and was known as the prosperity gospel. It proclaimed this doctrine that that to the christian nothing bad could happen, they would be rich, prosperous and any bad thing that happen to a christian was because of lack of faith or something in the life of that person was not well and that is why things had gone wrong. That doctrine has done so much bad to so many believers, it has destroyed churches, has made people believe this false promise that everything is going to be well. They forgot that this is not the true gospel. Jesus never taught that if you are a believer that was a solution to all our problems, that is false, we have just read that believers would have problems.

Luke 21: 25- 36. Where did Jesus taught this? They were walking and leaving the temple and they showed him how precious the temple was, they were so proud, but he said, "You see all of this? Nothing is going to remain here that is not going to be destroyed". When they listened to this they thought about this all the way to the Mount of olives and they asked Him: " Lord when will all of this happen?". Four of them asked this to him. They knew that when the Lord says something that is going to happen, that is going to be fulfilled. This that the Lord said was going to happen, literally happened, all that they Lord said happened. The Lord had already said this, Matthew 24 and Luke 24. You need to go to Revelations to know that there are things that have not been fulfilled yet, some have but others have not yet.

Is our turn to mark a difference but this society does not want to know anything about God, it is our responsibility now to keep the torch of the gospel lighted, it is not easy, all is against us in the society today, is not easy for us today, that is why we need to watch, pray, not to let this society absorb us, not to become one of them and enter in that routine of the society, anxiety and work, and ending up not fulfilling the purposes that God wanted and had for you. If it was not because that purpose that God has for us some of us would be dead but God allowed for million of circumstances to get together for us to be born to fulfill a purpose, and if you don't do it, another person won't be able to do it. All that is happening God and

the prophets already said they would happen in the last days and God is telling the church "Get ready that I am coming soon"

The other day I said that till the 19th century all christians believed that the church would go by trials and fire, the church would go through a time of trials because the churches need to be cleansed and sanctified. Then after the 19th century someone said that this was not going to be like this, that there was going to be a new doctrine, and this man said that now, when the trials and tribulation started, that christians would be taken away during the rapture and they would not go through any difficulties. In revelation it talks about the seals, the seven seals, a roll is stamped with seven seals and no one is worthy enough to take away the seals, but then the Lion the tribe of Judah is the one that can reveal what that roll says and He reveals the content. There it talks about horses that change colour, one that is white and later is black, and then is red and then yellow. In the book of Revelations also appear a rider and gives the message through the change of colour of the horses, it talks about a rider that has an arc without an arrow. God did a pact with the human race and used an arc, the rainbow, that is upside down and has no arrow. For a time a person will be known, the antichrist, and will have the support of the whole world, he will offer peace and will even do miracles, Satan will back up him, he will be the last leader that will be an instrument in the hands of the devil. He will not introduce himself as a bad person but as a pacific one, the life of that person that pretends to bring peace will change in little time and that is why it appears as the horses that change colour, it is a symbol to describe a message, and the rider then has a sword in his hand, that means war, he will start to take the peace away in many places.

After 3,5 years of the inauguration of the third temple, which the antichrist will help to make to lie to the people, the temple will be desecrated again, again the abomination of desolation will happen again, and the great tribulation will be a terrible time. With the third horse that talks about in Revelations the antichrist has a balance in the hand, but not to do justice, but to give a high price to the products. People will not have food to eat, the Bible says that they will have to work a day for loaf of bread, there will be robberies, people will die of hunger, that terrible colour in the skin of the people is represented by the colour of the horse, there will be earthquakes. It says that with the seven stamp there will be such a big earthquake that isles will be moved from their site. From where will our refuge come? The one that keeps Israel wont go to sleep. (Psalms 121). The bible says that between the sixth and seventh seal the Lord will bring from all over the world millions and millions of jews to Israel, He has already brought them back to Israel, many jews have gone back to Israel, there is already more than 9.5 millions of jews living in Israel, but there are still many more living outside of Israel than inside, and the bible says that fishermen will be sent to motivate them to go back to Israel because is there where the Lord wants to deal with His people, but if they don't hear and pay attention to the fishermen He would send then the hunters, and is very impressing to see how in the United States for example, where so many jews live, how there has been attacks to synagogues against the jews because the Lord is going to allow for the jews to go back to Jerusalem, that is why the only place in the world where there are whole cities, I have seen them, cities with everything, parks, buildings, gardens, squares, all brand new, prepared because they know that millions and millions of jews are coming back in the last days because is there where God is going to deal with his people, and is there

where God is going to show them that the truth Messiah is Him, the one that was crucified and killed in Calvary and also rose again. And it says that when millions and millions of Jews return from very different parts of the world, as it is already happening, God will start revealing the origin of each one of the tribes, and will choose 12000 of each tribe, a group of 144000 that will preach the gospel as never before has been preached. Christians have had many years to preach the gospel but Jews in the 3,5 years will change the word.

Today seeing all that is happening in the world we have to wake up and see that life is passing and that the purpose of God has to be fulfilled in our lives, this is why maybe the Lord has closed doors because maybe if He has not done that you would not be congregating or coming to church. It seems that we don't learn, God talks to us, and He talks in many ways, and He is trying to wake us up for us to realize that we are only on the way

Sometimes the Lord allows for us to go through trials to go to Him, and some of you would not be here if God was not pressing you for you to look for His help and blessing.

Jesus once said: She is not dead, is sleeping, and this could be said about the church also. The church needs to wake up. He went into the house and said to the girl, Talitha cumi, (Mark 5:41), and all changed suddenly.

Sometimes people go into a long process but other times God does impressive things in a moment, in a moment of faith God has done and all has changed.

The Lord woke me up last night telling that somebody that is here today was going to jail soon. God can change that or He also can use you in that situation.

I know God is here and He can do the miracle that you have been waiting for so much. When the Lord is in a place things change and there is nothing that can not happen.

The Lord knows everything and has everything under control
